I approached 'your one wish' because; we are a small community pre-school which has been established since 2011. We have battled with our garden area for many years, we have had nests of reds ants which we have tried to deal with, and a split garden where one half was an over grown forest. Over the years we have had to make do with the area which had to give the children a safe and effective learning environment.

'Your one wish' was amazing, we had informal meetings to see how they could help us and we were extremely happy that they felt we were a worthy cause.

Moving forward we were asked to make a garden plan, we were so excited (the end to our ants!). We drew up a plan and it was agreed, and a date was set for the works to be carried out the day after we broke up for the summer holiday. Perfect as this meant it would not impact on the day to day activities of the pre-school.

We arranged to meet again, and had a few phone calls in between, only to discover that not only were 'your one wish' going to make our dreams come true with our garden, they were going to replace all the windows, and back kitchen door. We were elated as the hall we are in is very old and in need of these things to be replaced to make it even more suitable for our children.

As the summer holidays approached we stayed in contact, during one telephone conversation they said they had a few surprises for us along the way, (wow!).

Once works had started, their team were like machines, digging, removal of rubbish, dismantling sheds and filling around 6 skips.

I went in to see the works happening and was so humble of what was already achieved.

The transformation to our garden, hall, and main building exceeded all of my expectations; it was just amazing, the new windows, newly painted fences, our main gates, and the front of our building all painted. Our fabulous laid patio area and new kitchen door and more.....

We cannot thank enough this special, special charity. You have made a massive difference to our children's learning environment and experiences. We are able to offer a bigger aspect of physical development and it will allow the children to expand and use their imaginations exploring a new environment.

Thank you again 'youronewish'
